Pastor: Melquiades Urgellés

RECEIVED

JAN 19 2 13 PM '00

Princeton, January 18, 2000

WILLIAM J. BAKER
DIRECTOR

Mrs Gloria Tristani
Federal Communications Commission
The Portals
455 Twelfth Street S.W.
Washington, DC 20554

RECEIVED

SUNSHINE PERIOD

JAN 21 2000

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Mrs. Tristani:

Enclosed is a petition to Mr. Chairman Kennard from the residents of various sectors of our community. As per Mr. Cruz A. Muñoz telephone conversation with you, the enclosed 2,000 plus signatures are an afford to bring to his attention the fact that it is almost impossible for us to effectively serve our community with a 100 watts LPFM station. We are asking for a minimum of 9 miles of radius around our Church in order to serve all the members and their neighbors, with a second to none educational programming.

We need at least 1,000 watts of power, and this is exactly what we are asking for. As we all know, the interference issue is just a myth. Give us the 1,000 watts of power and you will be doing the community a big favor.

Note: This signatures were collected in 72 hours period.

May God Bless you and the entire FCC staff.

Andrés Morejón
Associate Pastor

No. of Copies rec'd 0
List ABCDE

Dear chairman Kennard:

The undersigners, all residents of Miami Dade county Florida, respectfully but also strongly demand from the FCC to come through on its original promise to create a LPFM with the local community and small communities in mind. Last year we sent you 4,400 petitions expressing our views and concerns. We had the hope that after January 20th the NPRM in which you proposed "to license new 1000 watts low power FM radio stations" would become reality.

The Iglesia Cristiana El Buen Samaritano (The Good Samaritan Church) is willing and able to provide our community with a good LPFM station, but only if the FCC approves of the 1000-watts powered stations. However, without this it is simply impossible for any organization like ours to operate and effectively serve our community. We know we can count on your support and we thank you in advance.

Dear chairman Kennard:

The undersigners, all residents of Miami Dade county Florida, respectfully but also strongly demand from the FCC to come through on its original promise to create a LPFM with the local community and small communities in mind. Last year we sent you 4,400 petitions expressing our views and concerns. We had the hope that after January 20th the NPRM in which you proposed "to license new 1000 watts low power FM radio stations" would become reality.

The Iglesia Cristiana El Buen Samaritano (The Good Samaritan Church) is willing and able to provide our community with a good LPFM station, but only if the FCC approves of the 1000-watts powered stations. However, without this it is simply impossible for any organization like ours to operate and effectively serve our community. We know we can count on your support and we thank you in advance.
